

THE GEN POWER MASTERS (PTY) LTD

COMPANY PROFILE

THE GEN POWER MASTERS BACKGROUND

The Gen Power Masters (Pty) Ltd is a multi-disciplinary company founded specifically to address the diverse needs of our clients throughout South Africa. In order to meet these diverse needs, a number of specialized associates have joined forces under one umbrella. Under the name of The Gen Power Masters we are able not only to provide our clients with a high quality service of a specialized nature, but to also give a complete range of services.

Each of the specialized companies associated with The Gen Power Masters consists of a number of highly qualified and experienced individuals. These individuals have a unique combination of backgrounds in Power/Energy generation, Petroleum, Generator and practical implementation experience in their fields of expertise. This unique combination enables us to implement the best available technology in a practical sense in a developing environment. Our objective is to address the needs of our clients through the employment of our expertise in the planning and design, improvement, power solutions and rehabilitation of the living environment of communities throughout South Africa.

OUR MISSION

Dedicated to providing quality products and services to our clients by maintaining the highest level of safety, integrity and innovation, while remaining environmentally responsible and fostering growth in our employees and communities.

OUR VALUES

The company is founded on the core principles of

- Reliability
- Accountability
- Dependability

through paying attention to details, interaction with clients, authorities and standards.

CORE VALUES

The foundation of The Gen Power Masters 's ongoing success and development lies in preserving the trust of our clients, employees, shareholders and other third parties. Our flexible organization enables each and every one of our employees to exercise the autonomy required by our respective corporate responsibilities in accordance with the distinct characteristics of each location. Given that autonomy, it is essential that we operate in a manner consistent with our values and in compliance with our ethical principles and the law. To achieve that, nine basic core values guide our behavior in all aspects of our business activity throughout South Africa:

Integrity: Our business conduct includes the highest level of honesty, ethics, and moral correctness. We do not compromise employees, clients, or our company.

Respect: Respect is the basic rule of behaviour that guides every employee in all of his or her actions: respect for oneself and respect for other employees, clients, third parties, the trade unions, society at large, the Group's principles, laws and regulations, the environment, fairness and ethics in the broadest sense.

Teamwork: Our culture of teamwork allows us to work together within the Company, and with our clients to deliver better solutions and collectively accomplish our objectives.

Transparency: Our actions must match our words. Each day we must strive to earn our reputation rather than simply manage it. To that end, we operate in a manner in which our integrity and values cannot be questioned – that is, we must be authentic.

Leadership: Each day, every employee is expected to give the best of themselves, to strive constantly for quality and to demonstrate the highest level of professionalism – and to lead by example.

Accountability: Each individual is fully accountable for his or her decisions and actions.

Trust: Relations within the company are based on trust, which is the cornerstone of autonomy, frankness and authenticity. It is for each person to establish and develop his or her trustworthiness and for each person to extend trust to others.

Ethic: The Gen Power Masters (Pty) Ltd Company's is committed to "doing the right thing in the right way". Each day we strive to make this part of our culture and to ensure that this approach takes precedence over short-term profits or simple convenience. To achieve this end, we avoid any actions or activities that could call into question our reputation, integrity or impartiality.

OUR STRATEGY

Our strategic objective is to deliver projects that fulfil the customer's specifications. These specifications include the project being delivered on time, within budget and complete legitimacy. Our leverage is derived from a wide spectrum of social groups and our expertise is to deliver medium and large projects in South Africa and Southern Africa. In order to fulfil our strategic objective, we apply a unique combination of power solutions and project management.

The Gen Power Masters boasts experts with wide experience and proficiency in the relevant professional disciplines.

OUR EXPERIENCE

1. Generator Repairs/Serviceing & Installations

Our efficiency and experience mean our clients save on time and money as a result of faster turnaround times and a single on-site communication structure. As specialists in generator repairs, The Gen Power Masters will gladly assess your generators which are giving you problems. Our experience in the industry means that we have seen and dealt with many problems that come with old and tired generators, but thankfully for you, we have the expertise to fix your generators and potentially save you money in the long run.

Our services include the full range of activities related to the development of turnkey projects.

Common Issues We Fix

- ❖ Generator won't start
- ❖ No power from generator
- ❖ Generator smoking a lot
- ❖ Uneven operation
- ❖ Faulty controls

Maintenance

Our Maintenance team is committed to provide you with the highest quality of service and repair, with prompt response that includes 24/7 Support. We offer a variety of maintenance contracts that cater to each customer's needs. Not only do we offer diverse packages of service and maintenance contracts, but we also tailor to each customer's needs by developing on demand customized contracts.

Genset Repair

We offer variety of innovative and cost effective solutions from a normal service up to major overhauling including replacement of all the defected parts, repairing of pumps, cleaning of engine heads and radiators, and using genuine spare parts to ensure long term reliable operations.

On-Call Services

Our on-call service is supported 24 hours per day by a team of highly skilled service Technicians and Technical Managers with a comprehensive electrical and mechanical knowledge of power generation failures and repairs. Their experience and commitment enable us to provide a professional and efficient service to all customers regardless of whether we are supporting a single standby generator or a multiple set base load paralleling or synchro system.

Generator Rentals

Our rental division provide electric power generators for all your temporary and standby power needs. In collaboration with each individual customer, we will study the request and implement a solution for the temporary power requirements, whether it is by the provision of a single generator operating in a standby application, or by multiple generators exporting power to a utility infrastructure.

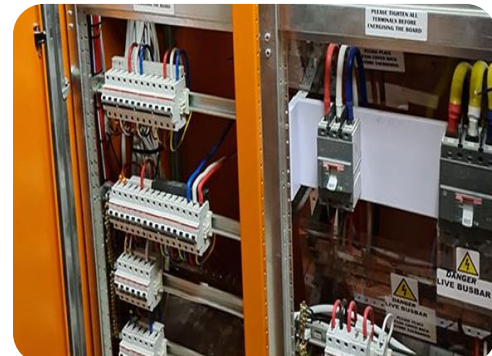

Our own extensive resources enables us to react immediately to customer's requirement for temporary power generation. All equipment are installed and commissioned by our own team of highly skilled, field based, service and commissioning technicians. Our portfolio of equipment and services offered by our rental division extends beyond the traditional range of services; as we are offering diesel generators ranging from 8 kW – 2000 kW.

HEALTH AND SAFETY

The Gen Power Masters is committed to building and maintaining a safe working environment and continual improvement with clear and non-negotiable standards and procedures. Our approach goes further than achieving our safety objectives with a zero-harm philosophy. We proactively foster a safe working environment in all the sites we manage and enhance the wellbeing of our employees and that of the communities within our areas of operation. We are committed to complying with all relevant legislation including the Occupational Health and Safety Act 85 of 1993; Minerals Act 50 of 1991 together with the Mines Health and Safety Act 29 of 1996 and current environmental laws and regulations. Compliance with legislation is important to us to the extent that it provides a minimum standard for the development of our systems and procedures.

We regularly review this legislation and where necessary address new requirements. In addition, we provide intensive on-going training to employees to ensure they are informed of the full extent of their safety and health obligations. Ensuring the safety and wellbeing of our employees is of vital importance to us, which is why we go the extra mile to ensure that our employees always have their safety wear on.

With hazards such as bricks falling from great heights and poisonous fumes always present, the construction environment poses constant potential health threats. To reduce the chances of occupational injury, we provide safety wear to all our employees and ensure that, through our site managers, safety specifications are observed and met at all times. The site manager conducts routine checks throughout the day to make sure that employees are safe at all times and that there is no risk posed to their health or safety.

CUSTOMER RELATIONS

Our clients are our business partners. We listen to them, respond promptly to their current needs, and anticipate their future needs. We provide quality services, products and systems that are safe and reliable. We are superior to our competitors, providing the highest value to our clients at a fair price.
